ABOUT US

L Cosmo H & P Care is a cosmetic company established in 2017. We are involved in providing cosmetic services to our clients and cater their needs in the world of beauty. This includes white labelling as well as contract manufacturing, providing finished products in bulk, cosmetic formulations and raw materials, etc

L Cosmo H & P Care has a team of experienced and expert professionals that helps in providing technical, packaging and marketing consultancy to our clients. Our relations with raw materials and packaging vendors helps our client to get the best and stand out from the market.

L Cosmo H & P Care possess different certifications such as FDA Approved, ISO 9001-2015 and Good Manufacturing Practices for our manufacturing facility.

For our clients with manufacturing and packaging needs, we have excellent, unique and distinctive manufacturing facilities.

Inhouse manufacturing facility includes:

- Automatic manufacturing ointment plants of capacities 500 and 1000 kgs
- 50 kg pilot plant for small batches
- 2.5 KI Petroleum jelly manufacturing plant
- Automatic labelling and batch coding machines
- Automatic cream filling, liquid filling and tube filling machines
- QA and QC lab for raw material, packaging and finished products

For the development needs of the clients, we have a Research & Development lab equipped with sophisticated analytical equipment.

L Cosmo H & P Care is a part of the Vijay group of companies. Vijay group is involved in various operations such as Import and Export of Aromatic Chemicals, Essential Oils and Fragrances (Roma Aromas / United Chemicals & Perfumes / Vijay Trading Co.), Manufacture Fragrances for Home Care, Personal Care and Incense Sticks (La Whiff Fragrances / Impel Fragrances), Manufacture Incense sticks and Dhoop Sticks (V.Jai Agarbatti Products).

MISSION

Our mission is to consistently meet the desires, needs and expectations of end and professional users with high-quality cosmetic products and services.

VISION

By ceaselessly developing high-quality and innovative cosmetic products friendly to the user and environment we aim to:

- Take over the leading market position in the segment of cosmetic care products - to become the first choice of cosmetic brands.
- Increase our market share and corporate reputation in our existing markets.
- To break into new markets within and beyond India.

HAIR CARE

SHAMPOO

- It is a blend of surfactants, moisturising and conditioning agents, actives etc. used for the purpose of hair cleanser, sebum removal, and leaving hair soft, lustrous and manageable
- We develop a variety of shampoo formulations which includes sulphate free, SLES based shampoo, shampoos with specific USP's

CONDITIONER

- We offer custom formulations using different conditioning and moisturising agents intended to condition the problems such as dry, rough and frizzy hair leaving it soft and smooth

HAIR SERUM

- Hair Serum makes hair shinier, healthier and causes less tangles
- Filling up the follicular cracks, it makes the hair smooth and frizz free
- It forms protective layer on the hairs which protect from harmful UV rays, dirt grimes and pollutants

SCALP SCRUB

- The working principle of scalp scrub is similar to that of body scrub, exfoliating the build up dirt, excess oil, and dead skin cells that inevitably gather at the root of your hair

Growing with the trend we have solutions to every need for hair nourishment from age old remedy to modern innovation:

Hair Oil - Blend of therapeutic oils for hair nourishment

Hair Tonic - Blend of oils and actives to control dull and frizzy hair

Hair Mask - A concentrated hair product for deep conditioning treatment

FACE & BODY CARE

To combat the skin damage from various external factors we present you our range of Face and body care products:

Face Wash - A face rejuvenating solution formulated in gel, pearly, creamy and foam base

Face and Body Scrub - High desired exfoliants for removal of dead skin

Face Mask - Clay based highly concentrated product for removing excess oil, hydrating skin and removing signs of ageing

Day cream - Light Cream with actives that nourishes skin, making it softer, smoother and prevents feeling of tightness

Night Cream - Cream with actives for soothing skin, ensuring even complexion, boosting collagen, reduction of wrinkles and fine lines

Face Serum - Highly concentrated viscous liquid for soothing sensitive skin, prevents it from free radicals and future damage

Facial Oils - Emollients that strengthen skin barrier and prompt it to generate smooth, rejuvenated skin cells

Toner - A water based blend of extracts and essential oils for restoring pH of skin, tightening its pores and preventing skin breakouts

Make-up Removal - A water based or cream based product for removal of make-up, preventing skin from dullness and acne breakouts

Moisturiser - Hydrating product formulated by permuting and combining various emollients, humectants and actives for fulfilling various needs of skin

Body Wash - A body cleanser formulated using surfactants and actives preventing dryness and clogged pores, restoring skin moisture while getting dirt off the skin

Body Butter - A deep hydrating product formulated by using different butters along with essential oils for intense nourishment of skin

Gels - A water based ointment for reducing sunburns, uplifting facial muscles and improving skin internally

Sunscreen - A gel, liquid or cream based formulation that works as chemical defence from UVA and UVB rays of the sun that damages the dermal layers of the skin

Petroleum Jelly - Mixture of oils and waxes forming semi-solid jelly used for healing skin scrapes and burns, moisturising skin

MEN CARE

BEARD OIL

- Blend of oils for nourishing and softening beard
- Helps beards look fuller, softer, tamer, promotes its growth as well as effective for moisturising skin underneath

BEARD SHAMPOO

- Softens the hair and cleanses the skin underneath
- It helps to keep the beard more plain for grooming, styling and shaping

BEARD WAX

- A styling product used for providing trendy look to the beard
- It helps with the stronghold of the beard to create intricate and complex styles

BEARD BALM

- An ointment formulated using moisturising agents and actives
- It helps to add volume, moisture, condition and soften the beard

HAIR GEL

- A hair styling tool used to keep every hair in place, stop flyaway
- It helps to control the hairstyle, gain required nutrients, keep hairs look all day long, makes it look thicker

HAIR WAX

- A hair styling aid which does not stiffen the hairs but helps it remain bouncy and pliable all day
- It not only helps in keeping hair soft and flexible but also helps in enhancing hair volume, shine, structure and texture

SHAVING GEL & CREAM

- Shaving creams and gels provide hydration in beard hairs during the shave, leaving them softer and easier to cut
- It creates thin layer of protection between blade and skin, ensure less friction and minimising risk of razor burn, irritation, and redness
- It helps in leaving the skin soothed and refreshed after shaving

AFTER SHAVE LOTION

- An after shave lotion is meant for repairing the skin post shaving
- It reduces swelling, ingrown hair, prevents razor burns and keeps the skin hydrated helping skin to heal and look smooth after shaving
